

THE WELDING KITS

The best help for the professional are kits designed to have everything needed at hand. Oxyturbo has a wide range of welding kits in both MAXI and MINI versions. For work safety, it is necessary to check that the gas supply pipes are fully intact and that the cylinders and their reducers are in working order.

THE SUPER MINI 2-LITER TURBO SET IS EQUIPPED WITH:

- cylinder trolley with storage stand
- 2L oxygen cylinder tested and refillable
- 2L gas cylinder already tested and refillable
- MINI oxygen reducer
- MINI propane reducer
- 4 m connected twin pipe
- double handle protection valves
- MINI handle attachment M20x1.25
- 100 lt/h nozzle
- goggles
- supply metals with deoxidizer

VERSION FOR CUTTING:

- cutting nozzle with 25 mm tip
- weight: 13 kg
