

GAS METERS BOX

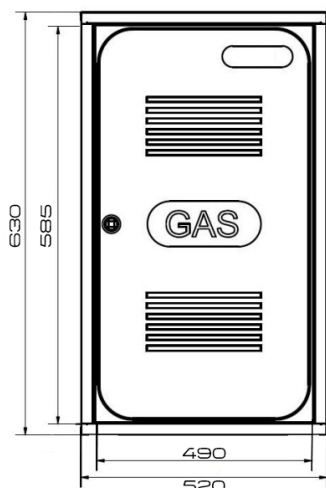

SKU 50858

Data Sheet

Box with fibreglass door treated anti-UV, frame and structure in AISI 304 stainless steel

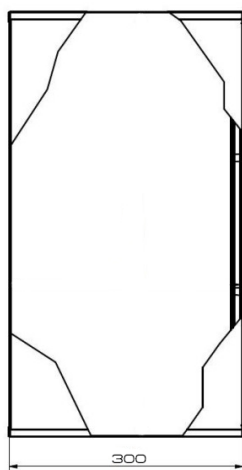

Product conforms to UNI 9036:2015

Box for gas meters with anti-UV treated fibreglass door, frame and structure in AISI 304 stainless steel sheet; designed for housing gas metering units with volumetric flow rates up to 6 m³/h.

Product features

- metal body in AISI 304 stainless steel sheet and fibreglass door
- excellent mechanical resistance to impact, atmospheric agents and UV rays
- opening and closing of the box through the 1/4 turn lock, with the supplied square profile key
- easy, fast and safe assembly thanks to the folding flap system
- backrest included
- it can be installed on the wall, inside a niche or fixed to a fence, thanks to the components with rounded edges to ensure maximum safety during use of the product
